

AQUATIMER

- IWC Schaffhausen has had close connections with diving since the 1960s. In 1967, the sport's growing popularity prompted the company to launch the first Aquatimer. It was waterresistant to 20 bar and featured an internal rotating bezel to display dive time. In 1982, the first diver's watch in titanium - water-resistant to 200 bar with an external rotating bezel - created a sensation: the Ocean 2000. No watch before it had been pressureresistant to these depths. In 1997, IWC rolled out the GST sports watch line, which rapidly became synonymous with ruggedness combined with suitability for everyday use. The ingenuity of IWC's engineers led to the GST Deep One in 1999. This striking diver's watch in a titanium case was the first IWC watch to feature a mechanical depth gauge.

For over 50 years, this same thirst for progress has generated a stream of new technical solutions that have made the Aquatimer watches the perfect companions on dry land as well as underwater: the external/internal rotating bezel, for instance, which

combines the advantages of an inner rotating bezel with the ease of use of an external bezel. The external rotating ring with IWC SafeDive system can be moved simply and precisely in steps of 1 minute, even when wearing diving gloves or with cold fingers. But new materials have also emerged in connection with the Aquatimer. In 2017, IWC Schaffhausen fittingly celebrated the Aquatimer family's 50th anniversary with the Aquatimer Perpetual Calendar Digital Date-Month Edition "50 Years Aquatimer" in a limited edition of 50 watches and simultaneously launched a new case material, Ceratanium®. The perfect combination of a customized titanium alloy with a ceramic surface makes this light material particularly scratch-resistant. A phase transformation takes place during the sintering process in the oven that gives the case components their striking matte black colour.

AQUATIMER PERPETUAL CALENDAR DIGITAL DATE-MONTH EDITION "50 YEARS AQUATIMER"

AQUATIMER AUTOMATIC 2000 EDITION "35 YEARS OCEAN 2000"

REFERENCE 3291

REF. IW329101 in titanium with black dial and black rubber strap

Limited edition of 350 watches · Mechanical movement · Self-winding · 42-hour power reserve when fully wound · Date display · Central hacking seconds · Mechanical external/internal rotating bezel with IWC SafeDive system · Luminescent elements on hands, dial and internal rotating bezel · Screw-in crown · Sapphire glass, convex, antireflective coating on both sides · Engraving of an antique diver's helmet on case back · Water-resistant 200 bar · IWC bracelet quick-change system · Case height 14.5 mm · Diameter 42 mm

AQUATIMER CHRONOGRAPH EDITION "SHARKS"

REFERENCE 3795

REF. I W 379506 in stainless steel with slate-coloured dial and black rubber strap

Limited edition of 500 watches · Mechanical chronograph movement · Self-winding · IWC-manufactured 89365 calibre (89000-calibre family) · 68-hour power reserve when fully wound · Date display · Stopwatch function with minutes and seconds · Flyback function · Small hacking seconds · Mechanical external/internal rotating bezel with IWC SafeDive system · Luminescent elements on hands, dial and internal rotating bezel · Screw-in crown · Sapphire glass, convex, antireflective coating on both sides · Engraving of a school of hammerhead sharks on case back · Water-resistant ✓ 30 bar · IWC bracelet quick-change system · Case height 16.9 mm · Diameter 44 mm

AQUATIMER CHRONOGRAPH EDITION "EXPEDITION CHARLES DARWIN"

REFERENCE 3795

REF. IW379503 in bronze with

black dial and black rubber strap

Mechanical chronograph movement · Self-winding · IWC-manufactured 89365 calibre (89000-calibre family) · 68-hour power reserve when fully wound · Date display · Stopwatch function with minutes and seconds · Flyback function · Small hacking seconds · Mechanical external/internal rotating bezel with IWC SafeDive system · Luminescent elements on hands, dial and internal rotating bezel · Screw-in crown · Sapphire glass, convex, antireflective coating on both sides · Engraving of a portrait of Charles Darwin on case back · Water-resistant 30 bar · IWC bracelet quick-change system · Case height 16.9 mm · Diameter 44 mm

AQUATIMER CHRONOGRAPH EDITION "GALAPAGOS ISLANDS"

REFERENCE 3795

REF. IW379502

in rubber-coated stainless steel with black dial and black rubber strap

Mechanical chronograph movement · Self-winding · IWC-manufactured 89365 calibre (89000-calibre family) · 68-hour power reserve when fully wound · Date display · Stopwatch function with minutes and seconds · Flyback function · Small hacking seconds · Mechanical external/internal rotating bezel with IWC SafeDive system · Luminescent elements on hands, dial and internal rotating bezel · Screw-in crown · Sapphire glass, convex, antireflective coating on both sides · Engraving of an iguana on case back · Water-resistant 30 bar · IWC bracelet quick-change system · Case height 16.9 mm · Diameter 44 mm

AQUATIMER CHRONOGRAPH

REFERENCE 3768

REF. IW376803 in stainless steel with black dial and black rubber strap REF. IW376804 in stainless steel with black dial and stainless-steel bracelet

Mechanical chronograph movement · Self-winding · 44-hour power reserve when fully wound · Date and day display · Stopwatch function with hours, minutes and seconds · Small hacking seconds · Mechanical external/internal rotating bezel with IWC SafeDive system · Luminescent elements on hands, dial and internal rotating bezel · Screw-in crown · Sapphire glass, convex, antireflective coating on both sides · Water-resistant 30 bar · IWC bracelet quick-change system · Case height 17 mm · Diameter 44 mm

AQUATIMER CHRONOGRAPH EDITION "EXPEDITION JACQUES-YVES COUSTEAU"

REFERENCE 3768

REF. IW376805 in stainless steel with blue dial and black rubber strap

Mechanical chronograph movement · Self-winding · 44-hour power reserve when fully wound · Date and day display · Stopwatch function with hours, minutes and seconds · Small hacking seconds · Mechanical external/internal rotating bezel with IWC SafeDive system · Luminescent elements on hands, dial and internal rotating bezel · Screw-in crown · Sapphire glass, convex, antireflective coating on both sides · Engraving of a portrait of Jacques-Yves Cousteau on case back · Water-resistant 30 bar · IWC bracelet quick-change system · Case height 17 mm · Diameter 44 mm
